

Ricki Lift 15

Referencia: Ricklift15

Description

The Rickilift is used to pollinate palm trees using a sprayer with a diffuser installed on the wide basket and a large stainless steel tank. The "U" shaped basket closes around the tree using the hydraulic system, enabling up to four people to simultaneously work at height.

As an option, the basket can be equipped with hydraulic quick coupling and a compressed air system that enables the use of hydraulic or pneumatic tools such as shears for thinning palm leaves.

Technical sheet

Engine type	Perkins 1104D - 44T Turbo
Length	7430 mm
Width	2500 mm
Weight	8800 kg
Load capacity	800 kg
Height Elevation	15 m
Maximum range	6.4 m
Motor Power (KW)	45 kW (100 hp) at
Maximum elevation height	12.95 m
Load capacity at maximum height	800 kg
Ground clearance	350 mm
Travel speed	12 km/h
Climate control as standard	No
Ordering	15
