

Magni ES1008E electric scissor lifting platform

Referencia: ES1008E

Description

The unidirectional extended platform quickly reaches the working position and has direct current motors, which guarantee a near-zero turning radius and improve the unit's performance in confined spaces. It offers automatic error code display on the screen to speed up maintenance tasks.

Automatic underbody protection significantly improves traction smoothness and safety in the raised position.

Its energy saving with zero emissions and silent operation make this platform suitable for any type of work, especially in closed spaces, such as warehouses and shopping centres as well as small construction sites.

The Magni ES1008E platform includes

- On-board diagnostic systems
- Motion alarm sensors
- Inclinator with alarm

- Push button for emergency stop
- Emergency descent system
- Automatic braking system
- Zero emission and zero noise design

Technical sheet

Model	ES1008E
Engine type	Electric
Brand	MAGNI
Machine type	Scissor platforms
Country	SPAIN
Length	2480 mm
Width	810 mm
Weight	2220 kg
Load capacity	230 kg
Height Elevation	10 m
Gradeability	0,25
Basket Dimensions	2.27 x 0.81 m
Working width	0.81 m
Platform Height	8 m
Height with handrails	2.32 m
Minimum height	1.89
Motorisation	Electric
Ordering	10
