

# Magni ES1212E electric scissor lifting platform

Referencia: ES1212E

## Description

---

The unidirectional extended platform quickly reaches the working position and has direct current motors, which guarantee a near-zero turning radius and improve the unit's performance in confined spaces. It offers automatic error code display on the screen to speed up maintenance tasks.

Automatic underbody protection significantly improves traction smoothness and safety in the raised position.

Its energy saving with zero emissions and its silent operation make this platform suitable for any type of work, indoors such as warehouses and shopping centres and outdoors such as small construction sites.

## The Magni ES1212E platform includes

- On-board diagnostic systems
- Motion alarm sensors
- Inclinator with alarm

- Push button for emergency stop
- Emergency descent system
- Automatic braking system
- Zero emission and zero noise design

## Technical sheet

---

Model	ES1212E
Brand	MAGNI
Machine type	Scissor platforms
Height	2440 mm
Load capacity	320 kg
Height Elevation	12 m
Height with handrails	2.44 m
Minimum height	1.92
Motorisation	Electric
Ordering	12
