

Magni ES1412E electric scissor lifting platform

Referencia: ES1412E

Description

The unidirectional extended platform quickly reaches the working position and has direct current motors, which guarantee a near-zero turning radius and improve the unit's performance in confined spaces. It offers automatic error code display on the screen to speed up maintenance tasks.

Automatic underbody protection significantly improves traction smoothness and safety in the raised position.

Its energy saving with zero emissions and its silent operation make this platform suitable for any type of work, indoors such as warehouses and shopping centres and outdoors such as small construction sites.

The Magni ES1412E platform includes

- On-board diagnostic systems
- Motion alarm sensors
- Inclinator with alarm

- Push button for emergency stop
- Emergency descent system
- Automatic braking system
- Zero emission and zero noise design

Technical sheet

Model	ES1412E
Engine type	Electric
Brand	MAGNI
Machine type	Scissor platforms
Country	SPAIN
Length	2480 mm
Height	2580 mm
Weight	2920 kg
Load capacity	320 kg
Height Elevation	14 m
Maximum Load	320 kg
Gradeability	0,25
Basket Dimensions	2.27 x 1.2 m
Working width	1.15 m
Platform Height	11.8 m
Height with handrails	2.58 m
Minimum height	2.05
Motorisation	Electric
Ordering	14
