

Transpaleta Súper Compacta con transporte fácil de cargas de hasta 1,2 toneladas

Referencia: MPSC12

Description

MPSC12 Compact Motorized Pallet Trucks are built for durability. With their compact construction and tight turning radius they are easy to use.

They are ideal for loading and unloading trucks and for internal transport of closed and open pallets over short or long distances.

Solid and robust design

Ergonomically designed, low-effort controls are positioned to reduce operator fatigue, and quick-response butterfly switches control direction of travel, speed and braking and allow smooth starting and controlled braking and acceleration

Ergonomic tiller head and controls

The ergonomically tailored tiller head is designed for maximum operator comfort, and the controls, which require low effort to operate, are positioned to reduce operator fatigue. High-

capacity, fast-response butterfly switches control direction and speed of travel and braking and allow smooth starting and controlled braking and acceleration

MOSFET DC

Combi MOSFET DC controller for traction and hydraulic controls and battery discharge indicator

Low maintenance

Maintenance-free batteries with on-board charger for on-site recharging. Optimized battery packs to ensure maximum uptime.

Technical sheet

Model	MPSC12
Brand	YALE
Length	2807 - 3011 mm
Width	1068 / 1108 / 1235 mm
Turning radius	1,98 m
Battery Capacity	24V / 840-1000Ah(V/Ah)
Weight	3294 kg
Load capacity	1200 kg
Height Elevation	5,5 m
No. of wheels	2 x / 2
Ordering	1200
