

Snake 189 lorry-mounted platform

Referencia: SNAKE 189

Description

Oil&Steel platforms are articulated with a single or double pantograph to modify the articulation height of the working arm and thus avoid various obstacles while working at height. The Snake189 model has a rotation system on the crown and its design and high quality materials define it as a resistant and durable machine.

It is very simple to handle and it has the best safety systems. This lorry-mounted platform has several accessories that make it more versatile and adaptable to any rental service. These accessories include:

- Specific enclosure for the machine designed for sea transport
- Kit 4 stabiliser support plates
- Hydraulic oil heat exchanger for hot climates
- Light (60W) in the basket powered by the batteries supplied with 12V socket included

- ° Hydraulic oil heat exchanger for hot climates
