

## ES1218RT

### Plataforma de tijera eléctrica Magni ES1218RT

#### Technical sheet

Model	ES1218RT
Length	3840 mm
Width	1760 mm
Height	2590 mm
Weight	4400 kg
4-Wheel Drive	Sí
Gradeability	40
Brand	MAGNI
CE mark	Yes
Working Height	12 m
Maximum Load	454 kg
Altura Elevación	10 m

#### Description

This Magni off-road electric scissor lift provides high maneuverability due to its small dimensions, which makes it a useful platform in interior areas of construction sites or in confined work spaces. With a high performance on any type of terrain, thanks to its gradeability of 40%, it is prepared for the most demanding jobs.

## **Magni ES1218RT platform includes:**

- Four-wheel drive
- Automatic pothole protection
- Large opening facilitates maintenance
- Horn
- Hour counter
- Proportional controls
- Flashing light
- Folding railing
- Extendable platform
- Self-locking door on platform
- Emergency stop button
- Movement alarm sensors
- Emergency lowering system
- On-board diagnostics system
- Safety bracket
- Drivable at full height
- 4 Wheels Steering
