

# OCTOPUS 17 crawler platform

Referencia: OCTOPUS 17

## Description

The Oil&Steel Octopus range has a compact structure, facilitating work in extremely small and narrow spaces. The pantograph enables a perfectly vertical ascent and descent, making this model of lifting platforms a versatile solution that can perform the most complicated movements.

Octopussy includes radio command remote control systems that enables the operator to control the movement of the platform without staying in the area in which it is operating, thus guaranteeing safety.

This lorry-mounted platform has several accessories that make it more versatile and adaptable to any rental service. These accessories include:

- Pair of white anti-trace tapes for internal use to replace standard material
- Machine waxed for sea transport
- Air/water line to the basket
- Adhesive messages on the arm (customer logo / send the file in jpg format).
- Painted different from the standard (white RAL 9016)
