

Tennant T600/T600e pedestrian industrial scrubber

Referencia: T600/T600e

Description

Tennant T600/T600e industrial floor scrubber

The Tennant T600/T600e industrial scrubber offers excellent performance and cleaning results, even in the most challenging environments. Its durable design and features increase productivity, making cleaning tasks more productive with a large selection of cleaning heads and a variety of optional technology innovations.

The orbital scrubbing on these scrubbers is ideal for cleaning grout tile floors and for stripping floors without chemicals. The recovery tank can be cleaned quickly and easily with the integrated spray nozzle. Access to detergents for the toughest stains built-in with the ec-H₂O NanoClean® system's Severe Environment™ switch.

The T600/T600e industrial scrubbers replace the 5680 model.

T600/T600e industrial scrubber features and benefits

Tennant's T600/T600e model offers the following benefits:

- Scrub longer between fill and empty cycles, thanks to the large capacity solution and recovery tanks.
- Increase battery life and productivity with optional Smart-Fill™ auto-fill technology.
- It can clean practically all types of hard surfaces with a wide range of cleaning heads.
- The industrial quality of its construction, together with its corrosion resistant materials in the scrub head, body and anti-oxidation polyethylene tanks enable these machines to clean in the most difficult environments.
- Its intuitive controls simplify training and operation.
- Yellow contact points help to simplify training, preventive maintenance and prevent breakdowns.
