

Tennant T16 battery-powered, ride-on scrubber

Referencia: T16

Description

Tennant T16 industrial scrubber/dryer: innovation and versatility

The T16 is designed with Tennant's exclusive scrubbing technologies and is 20% less expensive to maintain and operate compared to more traditional scrubbing methods in terms of consumables, cost of ownership and maintenance.

The T16 has a longer useful service life since it has higher quality parts and materials that guarantee a highly solid structure.

In terms of operating noise, the T16 is Tennant's quietest ride-on scrubber/dryer. Discreetly clean anywhere and at any time of day, operating at 68 dBA, without disturbing employees, customers, students, patients or visitors in noise-sensitive areas.

The operator benefits from an unrivalled design that provides an intuitive operating experience and also improves comfort, safety and ease of use.

Tennant T16 scrubber-dryer benefits

The T16 offers a range of benefits:

- The Tennant T16 cordless scrubber/dryer reduces the cost of ownership by 20% compared to similar machines with Tennant's innovative cleaning technologies.
- Thanks to ec-H2O technology, operators can clean up to three times longer with a single water tank and anywhere and anytime with its silent operation at 68 dBA.
- Perfect for cleaning large spaces as it has a 189-litre cleaning solution tank, thus increasing performance.
- The maintenance points are very easy to identify, which ensures protection of the investment.
- Productivity is improved with the scrub brush that can be extended to clean the edges of the floor and increase the cleaning path.
- The scrubber and operator are protected with the top canopy, industrial bumpers and the rear brush cover.
- Clean hard-to-reach areas using the on-board suction hose and its wide spray nozzle.
