Platform Height	17.9 m

#### Description

Buy the Scorpion 2013 lorry-mounted platform new from Oil&Steel. This lorry-mounted platform is part of the Scorpion range of telescopic platforms from Oil&Steel. Designed specifically for immediate interventions at height. State-of-the-art materials together with cutting-edge design and construction techniques give the Scorpion 2013 great resistance, stability and reliability that enable great work performance at height and light weight equipment without compromising safety.

Thanks to its stabilisation systems, the platform can be stabilised quickly and with maximum performance, adapting to the available spaces:

- With the extensions fully extended for environments with large spaces.
- With closed outrigger extensions to operate in tight spaces.
- With outrigger extensions open on one side and closed on the other for working in confined spaces.
