

Tennant S10 industrial pedestrian sweeper

Referencia: S10

Description

S10 industrial pedestrian sweeper

The Tennant S10 sweeper is one of the best pedestrian sweepers on the market for open and congested spaces.

Thanks to its compact design, the operator can carry out sweeping tasks efficiently in open spaces and in small spaces. Operators can clean for longer as the S10 has two dry or maintenance-free batteries that provide long-lasting, smoke-free performance, while the ergonomic design of the control ensures operator comfort.

The robust, corrosion-proof construction reduces maintenance costs and the bumper protects the customer's facilities and the machine.

It has excellent manoeuvrability with variable forward and reverse gears in any direction, while the dust control can filter up to three microns.

Tennant S10, main benefits

- The Tennant S10 is an industrial floor sweeper that has been manufactured to take on heavy jobs in the most arduous industrial environments:
- This sweeper protects employees and facilities from potentially hazardous dust and can absorb particles of up to three microns.
- Built for durability, exceptional results and dust control, it can sweep tight and open spaces in harsh environments.
- This machine has one of the largest hoppers on the market for pedestrian sweepers, which improves productivity as well as useful cleaning time.
