

## Tennant V-BP-7 backpack vacuum

Referencia: V-BP-7

### Description

---

The Tennant V-BP-7 backpack vacuum can clean practically anywhere with total comfort. It offers maximum operator comfort thanks to the vacuum cleaner's ergonomic straps, through which the weight is distributed on the operator's hips instead of the back. This 5.7-litre knapsack vacuum is suitable for more applications, since it goes where the operator goes with the accessories needed for any type of surface. There are multiple benefits that Tennant offers with this durable backpack vacuum at a truly competitive price.

### Main features of the V-BP-7 backpack vacuum cleaner

- The four-stage HEPA filtration included in the V-BP-7 backpack vacuum improves indoor air quality.
- With a lightweight design of just 5 kg, it increases comfort and reduces the risks associated

with heavier backpack vacuum cleaners.

- The Tennant V-BP-7 vacuum cleaner includes a complete set of standard accessories with which the appliance can be customised: an adjustable tube, tools for bare floors, easy-slide accessory on carpeted floors, dust brush, upholstery accessory and accessory for slits.
