

## Tennant F8 single-disc machine (interrupted)

Referencia: F8

### Description

---

The Tennant F8 high-speed single-disc professional cleaning, polishing and hardening machine quickly removes all types of dirt and marks on a wide variety of floor types, leaving a polished floor that attracts less dirt and is easier to clean.

Using brushes or pads, the Tennant F8 is ideal for achieving a high gloss floor finish, hardening coatings and emulsions and spray cleaning coated floors.

### Tennant F8 single-disc machine features and benefits

- Polished floors and a professional shine with the Tennant F8.
- Removes virtually all dirt and restores floor coverings that have various types of damage such as burns, firmly embedded stains and rubber marks.
- Increase operator safety and comfort thanks to the ergonomically designed handle and double safety switch.
- Quiet and comfortable operation for working in noise sensitive environments as low as 59 dBA.
- Totally professional looking glossy floors thanks to the 400 rpm rotary.
- High-quality floor cleaning performance provided by the 27 g/cm<sup>2</sup> downward pressure pad.
