

Mobilev 30 MT-3X1 3000 kg Mini Crane

Referencia: 30MT 3x1

Description

The 30 MT 3x1 is a compact and powerful mini workshop crane with a short shaft and hydraulic telescope mounted on an 18° slewing ring (optional). It is especially suitable for lifting operations in confined spaces. It uses three-cylinder kinematics, developed by Mobilev, which enables greater angular displacement of the shaft. All speeds can be adjusted from 0 to 100% from the serial wired remote control or the proportional radio control (optional).

Mobilev 30MT 3x1 mini crane accessories and equipment

- Anti-tip device.
- One hydraulic drive wheel.
- Wheels with non-marking polyurethane tyres.
- Hydraulic telescopic shaft.
- Hydraulic steering assist.
- Automatic hydraulic braking.
- Automatic hydraulic parking brake.
- Integrated electronic battery charger 220V~.
- Wired remote control and potentiometer.

- ° Two storage compartments.
