

# Mini Crane 3500 kg Mobilev 35MT-3X1- FCEL

Referencia: 35MT 3X1 FCEL

## Description

---

It is especially suitable for changing moulds in injection moulding machines. It uses a three-cylinder kinematics, developed by Mobilev, which enables greater angular deviation of the shaft and vertical lift of more than one metre through synchronised control of the cylinders. All speeds can be adjusted from 0 to 100% from the standard wired remote control or from the proportional radio control (optional).

**Mobilev 35MT 3x1 FCEL mini crane accessories and equipment**

- Anti-tip device.
- One hydraulic drive wheel.
- Wheels with non-marking polyurethane tyres.
- Hydraulic telescopic shaft.
- Hydraulic steering assist.
- Automatic hydraulic braking.
- Automatic hydraulic parking brake.
- Integrated electronic battery charger 220V~.
- Wired remote control and potentiometer.
- Two storage compartments.
