

Coil lifter 500 kg Logitrans RL 500

Referencia: RL 500

Description

The Logitrans coil elevator is an ideal complement to the range of turners to improve manoeuvrability in confined spaces. The lift's compact size and ergonomic design make it easy for the operator to position the reels.

It is prepared to efficiently handle coils from Ø120 mm to Ø1270 mm with lengths up to 520 mm. Its forks are easily adjusted to the size of the spools. The efficiency and flexibility of this machine are accompanied by a very simple handling thanks to the flow valve that guarantees a precise positioning of the coil. The maximum lowering speed is factory set and the ergonomic tiller enables for extreme precision.

Technical sheet

Model	RL 500
Brand	LOGITRANS
Country	SPAIN
Load capacity	500 kg
Ordering	500
