

## Logitrans HL 1500 kg manual scissor pallet jack

Referencia: HL

### Description

---

These types of lifts offer the highest quality and safety through the Logitrans testing programme and its close collaboration with occupational hazard experts. Its protection for the operator includes centralisation of all control panels, safety stops on the drive wheel, tandem load wheels and foot guards.

The scissor pallet jack has an adjustable working height with great manoeuvrability of 1500 kg up to a lift of 470 mm and 1000 kg between 470 mm and 800 mm.

### Further information about the Logitrans HL scissor lift pallet jack:

- Highly reliable cylinder structure.
- Robust machine with low maintenance costs that prolong its useful life.
- Wide range of optional equipment.
