Brand	Array

Description

The Tennant 2260 single-disc machine is a two-speed floor machine designed for daily cleaning as well as periodic maintenance. The F12 can scrub and buff efficiently at 170 rpm and double the speed at the push of a button, making it ideal for spray polishing and buffing.

Tennant F12 single-disc machine features and benefits

- Polished floors and a professional shine with the Tennant F12.
- Removes virtually all dirt and restores floor coverings that have various types of damage such as burns, firmly embedded stains and rubber marks.
- Increase operator safety and comfort thanks to the ergonomically designed handle and double safety switch.
- Quiet and comfortable operation for working in noise sensitive environments as low as 65 dBA.
- Fully professional-looking glossy floors thanks to the adjustable 170 or 340 rpm to provide different cleaning options.
- High-quality floor cleaning performance provided by the pad's 33 g/cm² downward pressure.
