

## COMPLETE DIRECTIONAL WHEEL EXCHANGE RIM

Referencia: 1023241

**110 €**

### Description

---

Keeping the wheels in good condition is one of the most critical parts, and one to which any user should pay special attention when starting to work with the machine. Not only do they serve to stabilize and give traction to the machine, but also the safety of the operator depends on them, and with good care of them, most of the accidents that occur in the handling of the platforms could be avoided.
