

Rotating telescopic handler RTH 7.26

Referencia: RTH 7.26

Description

Rotating telescopic handler from the Italian manufacturer Magni with a maximum lifting height of 26 meters and a load capacity of 7,000 Kg. Magni telescopic handlers are unique in the market, both for the power they develop and for the height they reach. The entire range includes the registered design Magni cab, which provides 360° operator visibility and is fully pressurized under FOPS / ROPS regulations. In addition, all manipulators are compatible with the full range of attachments which, on the other hand, includes automatic attachment recognition.

This telehandler has a lifting height of 26 meters and a maximum load capacity of 7,000 Kg. It offers a horizontal reach of 22 meters and includes a Volvo Stage V engine. It includes scissor stabilizers.

The RTH 7.26 telehandler equipment includes:

- 3-in-1 service: forklift, basket and crane
- 360° rotation
- Registered Design Cabin
- FOPS / ROPS certifications
- MCTS
- 100% air filtration
- Cabin heating and air conditioning

- Cup holder
- RFID
- Automatic leveling
- CAN Bus
- Hydraulic system
- Optimal lifting performance
- Gradeability of 30°-40°

Technical sheet

Model	RTH 7.26
