

# Lithium-ion powered pallet truck

Referencia: MPC15

Description

---

The Yale MPC15 electric pedestrian pallet truck represents an outstanding innovation in the materials handling field. Designed with a focus on efficiency and productivity, this electric pallet truck is ideal for a wide range of industrial and commercial applications.

One of the most notable features of the Yale MPC15 is its dual lithium-ion battery, which means longer operating autonomy and shorter charging times. This translates into less downtime and increased productivity on the jobsite. Lithium battery technology also offers the advantage of a longer service life compared to traditional batteries, which translates into a lower total cost of ownership over time.

Maneuverability is another strength of this electric pallet truck. Its compact design and ability to operate in tight spaces and narrow aisles make it an essential tool for warehouses and distribution centers with limited space. Operators can move with ease and precision, reducing the risk of damage to the load and the working environment.

In terms of safety, the Yale MPC15 is equipped with advanced features to protect operators and cargo. It has a regenerative braking system that improves stability when braking and reduced cornering speed to prevent dangerous skidding. This contributes to a safer working environment and reduces the risk of accidents.

Versatility is key on the Yale MPC15, as the forks are adjustable in width to handle different types of pallets and materials. This means it can easily adapt to various applications and material handling needs.

The Yale MPC15 electric pedestrian pallet truck is a smart investment for any operation that requires efficient material handling. With its dual lithium battery, exceptional maneuverability and advanced safety features, this electric pallet truck improves material handling efficiency and safety. For companies looking to improve productivity and reduce operating costs over time, the Yale MPC15 is a solid and reliable choice.

## Technical sheet

Model	MPC15
Brand	YALE
Length	1622 mm
Width	685 mm
Height	82 mm
Battery Capacity	48V / 10-15Ah(V/Ah)
Weight	120 kg
Load capacity	1500 kg
Motorisation	Electric
Ordering	1500
